

Get Mega Results through Microlearning

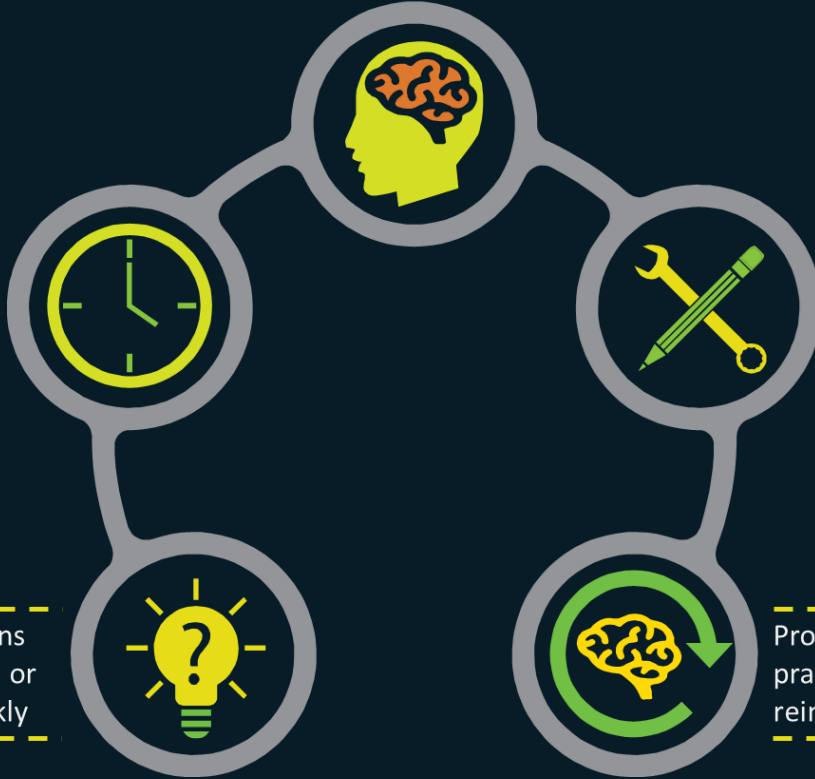

learning solutions

Small instructional units or activities focused on a single goal or concept

Provide continual skills and knowledge enhancement for motivated workers

Learn a new concept or procedure at the point of need

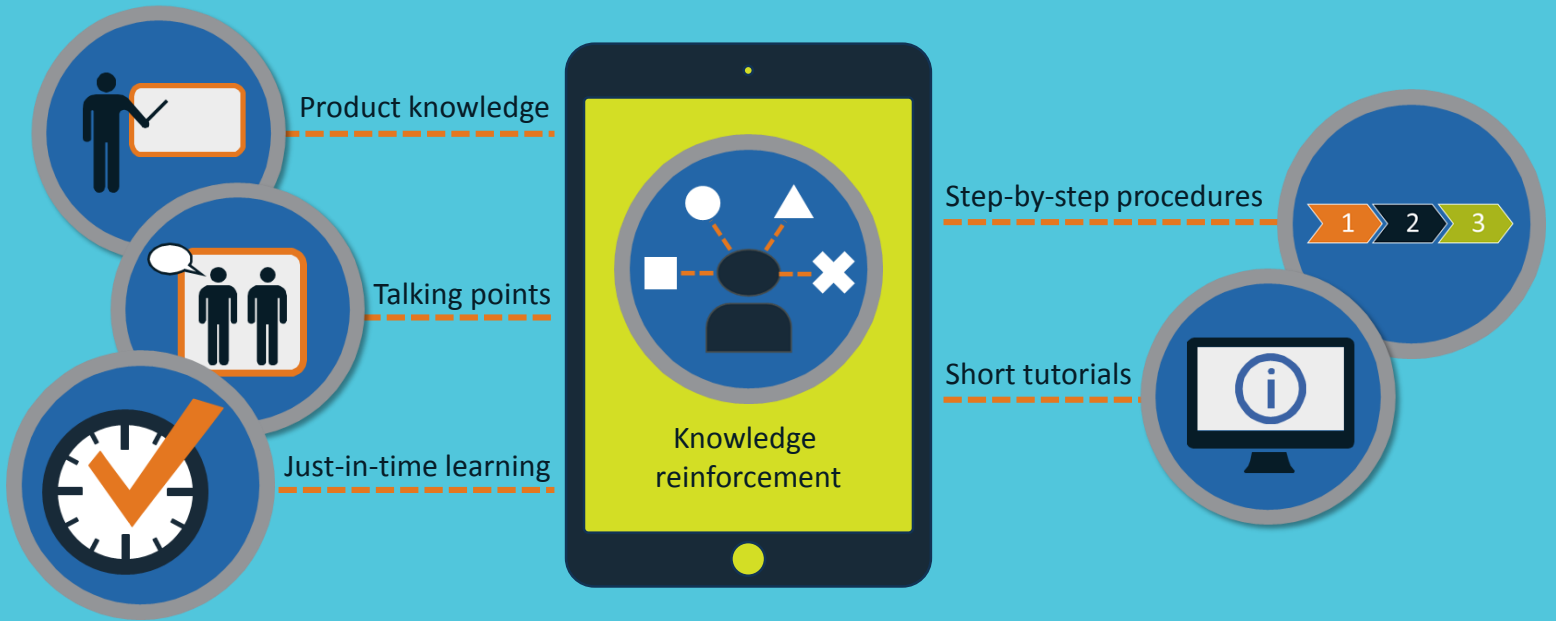

Refresh knowledge and skills previously learned

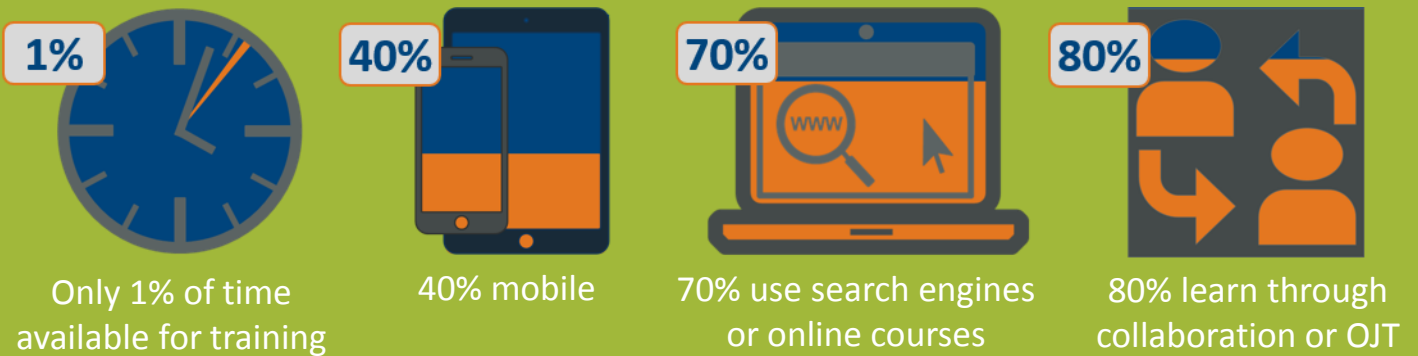

Answer questions from customers or coworkers quickly

Provide repetition and practice to enhance and reinforce formal learning

Drives continuous learning to engage wherever and whenever needed

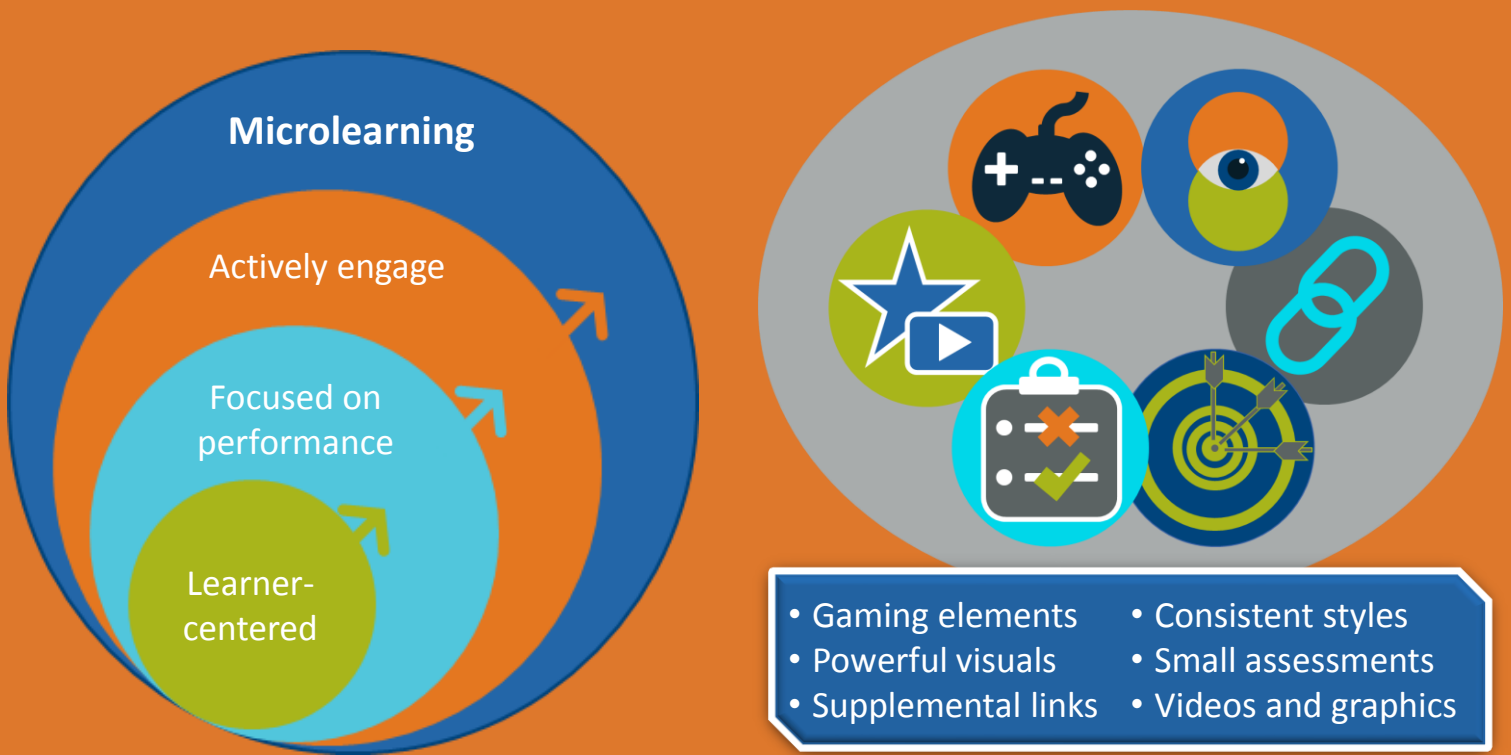

In recent years, busy schedules of an increasingly mobile workforce has created a stronger appetite for engaging, concise learning

Microlearning addresses all of these concerns; it is:

- Available at point of need
- Easily accessible & searchable
- Designed for mobile
- Controlled by learners
