

Case Study

Consulting

Judge Consulting Provides Tailored Protection Against Complex Cyber Threats as a Managed Security Service Provider.

A leading provider of unified communication services sought to address its vulnerabilities to increasing and sophisticated cyber threats by engaging with Judge Consulting as a Managed Security Service Provider (MSSP).

THE CHALLENGE

Protecting the Company Against the Threat of Advanced and More Frequent Cyber Attacks

A provider of Unified Communications as a Service (UCaaS), offering companies branded VoIP and cloud-based communication services, recognized the ever-evolving threat of bad actors and cyberattacks to its business. The increasing complexity and frequency of threats and attacks led the client to realize they needed a partner with experience and expertise in cybersecurity to address these challenges. Looking to safeguard operations now and in the future, the client sought a Managed Security Service Provider to protect their business and digital assets.

THE SOLUTION

A Managed Security Service Provider Solution, Designed for the Client's Business, Ensuring Comprehensive Cybersecurity

The client turned to Judge Consulting to assess its systems and operations and recommend the best path forward to safeguard their business from cyber threats. Judge's MSSP solution utilizes an autonomous breach protection platform that consolidates and automates monitoring and control, attack prevention and detection, and response orchestration across the entire environment. Judge's 24/7 SOC staff monitors and addresses identified alerts while fine-tuning the alerting function for the client. With complete threat coverage, human interaction, and incident response, Judge eliminates the need for complex multi-product security stacks.

Additionally, Judge provided security awareness training and phishing campaigns, vulnerability scanning, patch management, and remote monitoring to ensure the organization could focus on growing its business with peace of mind.

THE RESULT

An Integrated MSSP Solution to Safeguard the Organization Today and into the Future

Judge Consulting's MSSP solution helps mitigate risks, monitor threats in real-time, and respond to incidents as part of its ongoing engagement with the client. Judge's solution integrated seamlessly with the client's existing infrastructure, providing scalable and customizable security measures to protect the client today and adapt to future needs. The client has successfully secured its business and set itself up for success when future cyber threats arise. Judge Consulting's MSSP is a cost-effective, scalable cybersecurity solution that enables businesses to focus on their core operations while ensuring robust protection against evolving cyber threats.

“With complete threat coverage, human interaction, and incident response, Judge eliminates the need for complex multi-product security stacks.”
