

Our Government Capabilities

At Judge Government Services, we are attuned to the unique challenges of the government and can develop and deploy solutions to overcome them. Our specialists work alongside local, state, and federal government entities and integrators to streamline systems, improve work streams and dataflows, fill critical talent gaps, and update legacy technologies.

We bring 55 years of excellence in delivering cost-efficient solutions to various public- and private-sector organizations, including DOD and 60-plus Fortune 100 companies. We have earned our reputation as the preferred partner for top government systems integrators, agencies, and contractors. We address the critical needs of your organization so can achieve your mission.

Core Competencies

Managed Services

- Technology agnostic – we begin by understanding the problem and desired outcome, then find the right tools, technologies, talent, and partners.
- Single-vendor-model leveraging certified project resources that makes tracking and monitoring much easier.
- Comprehensive suite of services.
- Cost efficiencies through a “not to exceed” budgeting model, cost management, and reporting.
- Quicker ramp-up for resources through engagement management, onboarding, and oversight.

Project-Based Execution

- Provide expert advice and support in areas of need.
- Project-based execution experts adhere to a rigorous performance management process that ensures resources are maximized.
- Consultants dig deep to efficiently and effectively deliver solutions.

Education & Training

- Award-winning track record of proven learning outcomes with more than 30k training projects delivered.
- Team of experts focused exclusively on learning and staff development solutions that best address learning needs.
- Team is equipped to manage part or all of L&D function, as well as manage large training rollouts across an organization.

Staff Augmentation

- Staffing needs assessment and analysis from executive to all levels of an organization.
- Talent search and identification for both temporary or permanent positions.
- Training and placement services.
